

Series-Parallel Wiring Diagram

Series-Parallel Wiring

Four 16-Ohm speakers
wired in series-parallel to yield
a total load of 16 Ohms.
Formula:
 $1/(1/16+1/16) + 1(1/16+1/16) = 16$
where... $1/(1/16+1/16) = 8$
Ⓢ = combined parallel load
